**Notes on table**

- 1) Nominal power P<sub>N</sub> Mechanical power output at motor shaft at running torque of multi-turn actuator (corresponds to approx. 35 % of maximum torque). Consumed electrical power can be calculated using the following formula:  

$$P = U \times I \times \cos \phi \times \sqrt{3}$$
- 2) Nominal current I<sub>N</sub> Current at running torque.
- 3) Max. current I<sub>max</sub> Current at maximum torque

**Notes on installation and sizing**

Motor data Motor data is approximate. Due to usual manufacturing tolerances, there may be deviations from the values given.

Thermoswitches/PTC thermistors To protect against overheating, thermoswitches or PTC thermistors are embedded in the motor windings.

**Actuators without integral controls:**

Thermoswitches or PTC thermistors have to be considered within external controls (refer to terminal plan).

**Note: Failure to connect thermoswitches or PTC thermistors shall void our warranty for the motor.**

**Rating of thermoswitches**

AC current		DC current	
250 V, 50 – 60 Hz		60 V	1.0 A
cos φ = 1	2.5 A	42 V	1.2 A
cos φ = 0.6	1.6 A	24 V	1.5 A

**Actuators with SC integral controls:**

Thermal motor protection is already integrated.

Mains voltage, mains frequency Permissible variation of mains voltage: ±10 %  
 Permissible variation of mains frequency: ±5%

## Switchgear sizing

For motor operation, reversing contactors (mechanically, electrically and electronically locked) or thyristors (electronically locked) can be used.

**Actuators without integral controls:**

Switchgears are supplied by the customer. We recommend specification of switchgears suitable for their rated operating power/motor power in compliance with the assigned SCHWARZ power class.

Switchgear assignment to SCHWARZ power classes:

SCHWARZ power class	Reversing contactor		Reversing contactor	
	Rated power according to EN 60947-4-1:2010 AC-3	380 V AC	480 V AC	600 V AC
C1	4.0 kW	4.0 kW	5.0 hp	5.0 hp
C2	7.5 kW	7.5 kW	10 hp	10 hp
C3	15 kW	15 kW	20 hp	25 hp
C4	30 kW	30 kW	60 hp	60 hp
C5	55 kW	55 kW	75 hp	100 hp

**Actuators with SC integral controls:**

required switchgears are already integrated.
